

Natural California Sun Dried Rainier Cherries – Pitted

DESCRIPTION

The rainier cherries are washed, de-stemmed and pitted, then carefully laid on drying trays, and laid in the California sun to dry. The cherries are removed from the trays, rewashed, sorted, packaged, and stored. The cherries used are grown locally in the California San Joaquin Valley and the sun drying process locks in the intense fruit flavors.

QUALITY FACTORS

Color	Practically uniform brownish yellow characteristic of sun dried rainier cherries.
Defects	Practically free of defects from discoloration, dark units, imbedded dirt, or other foreign material. May contain pit or pit fragments.

ANALYTICAL

Moisture	15% - 30%
